Lancaster County Library has a new, easy to use eBook and eAudiobook service!  The cloudLibrary has great new titles for all ages and links up to your LCL account.  We are having the titles you previously found in Overdrive migrated over to cloudLibrary on December 18th.  With the increasing demand for digital content, cloudLibrary offers the best solution where we will be able to provide you with more eBooks and eAudiobooks than ever before!

Use cloudLibrary on many devices, including:

- Apple devices (iPad, iPhone)

- Android tablets and phones

- Kindle Fires

- PCs and Macs (transfer to your Nook or Kobo e-reader)

Chromebooks

The set-up is simple – download the app, log in one time with your LCL library card and pin, and then you are set to read eBooks anytime, anywhere! Check out up to 5 titles at a time, and keep them all for 21 days, when the they will automatically expire from your account.

We added the simple and intuitive cloudLibrary to respond to your feedback and keep up with the ever-growing demand for eBooks and eAudiobooks.  If you have questions, please visit https://www.yourcloudlibrary.com/ or talk with a friendly LCL staff member.
